EUROMEDIC OPENS A NEW MULTI - MODALITY DIAGNOSTIC CENTRE IN IASI, ROMANIA

Euromedic announced the opening of its latest state-of-the-art diagnostic centre in Iasi, Romania. This multi-modality centre is located in the Northwest territory of Romania in the Moldova Region and is Euromedic's seventh diagnostic centre in the country.

IMC Iasi will provide a range of diagnostic services including: Computerized Tomography (CT), Magnetic Resonance Imaging (MRI) and Bone Densitometry to both public as well as private patients. This year the centre with its 15 medical professionals will complete nearly 10,000 diagnostic investigations.

Euromedic owns and operates 180 medical centres (91 Diagnostic, 57 Dialysis, 31 Clinical Laboratories and 1 Radiotherapy Centre) located in 15 countries in Europe. The CT Centre in Pascani which was opened in September of this year will serve as the satellite centre of this Iasi Centre.
