EUROMEDIC OPENS A NEW DIALYSIS CENTRE IN PILA, POLAND

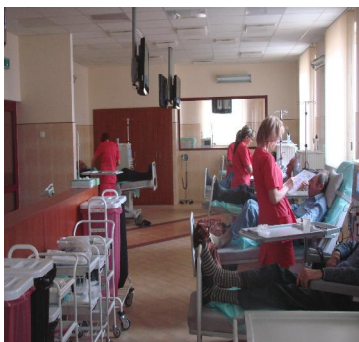

Euromedic announced the opening of a new dialysis centre in Poland in the town of Pila. The centre is located in northwestern part of the country and was developed as a Green Field Project.

IDC Pila will treat 55 patients on a regular basis and is equipped with state-of-the-art haemodialysis equipment and water treatment systems with capacity to treat 108 patients.

The centre has 14 haemodialysis machines and is fitted with a complete Nephrological Clinic and Peritoneal dialysis section. This year the centre with its staff of 15 medical professionals will perform nearly 8,000 treatments.

This new centre extends Euromedic's network of medical centres to 187 (92 Diagnostic, 61 Dialysis, 32 Clinical Laboratories and TWO Cancer Treatment Centres) in 15 countries around Europe.
