BULGARIA - EUROMEDIC'S 15TH COUNTRY OF OPERATIONS FOLLOWING THE ACQUISITION OF DR. VITANOV DIAGNOSTIC CENTRE IN SOFIA

Euromedic announced its entry to Bulgaria its 15th country of operations with the completion of its first acquisition in the country. The acquisition includes one diagnostic centre located on the grounds of the National Oncology Centre in Sofia. The company also announced the appointment of Dr. Cvetan Angelov as its Country Manager. Prior to joining Euromedic Dr. Angelov was the Director of Sales & Marketing for Fresenius Kabi Bulgaria and earlier as the Novartis Group Brand Manager.

The centre has a highly respected reputation for providing modern, quality imaging diagnostic services and has served the community for nearly 3 years. IMC Sofia currently provides Magnetic Resonance Imaging (MRI) diagnostic investigations with plans to broaden its modalities in the near future. This year, the centre (Headed by Dr. Vitinov) and his team will perform over 2,000 diagnostic investigations. Euromedic owns and operates 156 medical centres (77 diagnostic, 51 dialysis and 28 clinical laboratories) in 15 countries in Europe.
