EUROMEDIC ACQUIRES SIX NEW DIAGNOSTIC CENTRES IN PORTUGAL

Euromedic has announced the completion of its acquisition of “CRT Diagnostics Group” which is headquartered in Tomar. The acquisition includes six multi-modality diagnostic centres: CRT-Centro de Radiologia de Tomar, DIAMECOM-Diagnóstico Médico Computorizado, SANTAC-TAC de Santarém, CIMAGEM-Centro de Imagens Medicas, NIC-Núcleo de Imagiologia Computorizada and ULTRASONO-Radiologia, which are located in the Central Region of Portugal (Tomar, Santarém, Abrantes, Entroncamento, Sertã and Torres Vedras). The group provide a complete range of Outpatient Diagnostic services including: MRI, CT, Angio, Mammography, Ultra Sound, X-ray, and Bone Densitometry services.

“CRT Diagnostics Group” and its subsidiary companies collectively have well established brand names as distinguished, professional Medical Services providers with over 25 years of dedicated service to the communities. The “CRT Diagnostics Group” headed by Dr. Alexandre Correia Leal and his team of 75 medical professionals receives more than 800 patients per day and completes over 235,000 Diagnostic investigations per year. These centres together, with the 39 Medical Facilities that Euromedic is already operating in Portugal, will make Euromedic the leading private Diagnostics Medical Services provider in the Country. Euromedic owns and operates a network of 165 medical centres (86 Diagnostic, 51 Dialysis and 28 Clinical Laboratories) in 15 countries in Europe.
