EUROMEDIC EXPANDS ITS HOLIDAY DIALYSIS FACILITIES - ACQUIRES CURACAO DIALYSIS CENTRE IN THE CARRIBEAN

Today, Euromedic announced the acquisition of a state-of-the-art dialysis centre “Caribbean Medic” on the Caribbean Island of Curacao in the Netherlands Antilles. The Curacao dialysis centre is located in a beautifully restored 18th century colonial style building with all the modern amenities overlooking the St. Anna Bay and downtown Willemstad.

The acquisition of the “Caribbean Medic” is strategic for Euromedic as it is an expansion of the company’s Holiday Dialysis program which it currently operates in Cappadocia - Turkey, Lieria - Portugal and Kolobrzeg - Poland. IDC Curacao treats 47 patients on a regular basis and is treating large numbers of visiting patients from Europe and the United States. The centre headed by Medical Director Dr. Rauf Engels and his highly qualified medical and technical staff of 14 performs over 10,000 treatments annually.

This latest acquisition extends Euromedic’s network of medical centres to 108 (65 Diagnostic and 43 Dialysis) located in 15 countries primarily around Europe.
