“IMUNO” LABORATORIES IN CZECH REPUBLIC RECEIVES THE HIGHLY PRESTEGIOUS ISO 15189 CERTIFICATE OF ACCREDITATION

Euromedic International has announced that its clinical laboratory company “IMUNO” in Czech Republic has received the highly respected ISO 15189 certificate of accreditation. With this accreditation, IMUNO joins an elite group of Global Labs as only 4% of the worlds labs have this accreditation and IMUNO is the first company in Czech Republic to be accredited. IMUNO Labs includes a network of nine laboratories and 12 collection centres offering a full range of clinical examinations. The laboratories are located in the cities of Jirkov, Louny, Podborrany, Vejprty, Most, Litvínov, Klášterec nad Ohří, Chomutov, and Zatec. “IMUNO” laboratories have a well recognized and respected brand image having served in the community for over 14 years. The laboratories offer a complete range of clinical tests including: Biochemical, Microbiological, Hematological, Immunological and Nuclear Medicine. The company with its staff of 79 medical professionals perform over 5,000,000 clinical examinations annually. Euromedic owns and operates 12 laboratories in Czech Republic and Greece.
