Euromedic has announced the completion of its acquisition of “INTERMED” Medical Centre, a state-of-the-art multi-modality Outpatient, Diagnostics and Laboratory centre located in the Nisantasi Region of Istanbul’s city center.

“INTERMED” which was established in 1982 was the First Private Health Care Provider in Turkey. The company is a distinguished, well recognized medical services provider with over 25 years of dedicated service in Istanbul. INTERMED is one of the largest private medical services provider in the city and with its team of 60 medical professionals receives over 200 patients per day and completes over 130,000 Diagnostic / Laboratory examinations per year.

The company provides a full range of Outpatient, Diagnostic and Laboratory services including: MR Angiography, Mammography, Conventional Radiography, Colored Doppler-Sonography, Cardiology, Internal Medicine, Internal medicine, Gastroenterology, Endocrinology, Orthopedics, Nutrition, Echocardiograms, Echography, Neurology, Neurosurgery and a complete line of clinical laboratory services.

“INTERMED” Medical Centre which is Euromedic's First Diagnostics acquisition in Turkey, joins the company’s existing ten dialysis centres which are owned and operated by Euromedic in country. This latest acquisition extends Euromedic’s network of medical centres to 106 (64 diagnostic and 42 dialysis) operating within 14 countries around Europe.
