SWITZERLAND - EUROMEDIC'S 14TH COUNTRY OF OPERATIONS FOLLOWING ACQUISITION OF THREE DIAGNOSTIC CENTRES IN VALAIS

Today, Euromedic announced its entry to Switzerland its 14th country of operations with the completion of its first acquisition in the country. The acquisition included three multi-modality diagnostic centres located in the canton of Valais, Switzerland. "Centre d'Imagerie Valaisan" (CIV) Sion, "Centre d'Imagerie de Sierra" (CIS) in Sierra and "Medizinisches Radiologisches Institut" (MRI) in Brig.

Joseph Priel, President Euromedic International and Dr. A.H. Sidani sign the Sales Purchase Agreement in Geneva.

The group of centres have a highly respected reputation for providing state-of-the-art quality imaging diagnostic services and collectively have served the community for nearly 30 years.

The centres provide a wide range of diagnostic procedures including: Computerized Tomography (CT), Magnetic Resonance Imaging (MRI), Ultrasound, Digital X-rays and Mammography. This year, the company (Headed by Dr. A.H. Sidani) and his team of 27 medical professionals will deliver over 25,000 diagnostic investigations. This latest acquisition extends Euromedic's network of medical centres to 86 (50 Diagnostic and 37 Dialysis) located in 14 countries around Europe.
